

MEET MADDEN

Madden is a fierce yet sweet boy who aims to please those around him while being very independent. Our family thanks Desert Voices for showing Madden each of those qualities. When Madden was born, we received mixed information on his hearing diagnosis from multiple doctors. It wasn't until he was 10 months old that he was officially diagnosed with profound hearing loss. Madden was gifted his first cochlear implant at 14 months and he started attending Desert Voices 4 short months later. Madden received his second cochlear implant while attending Desert Voices.

Madden attending Desert Voices was a very important decision for our family as we live 3hrs away. With the support of family, we divided and conquered traveling to Desert Voices weekly for Madden and reuniting as a family on the weekends. Each week we were able to see and hear Madden's growth in communication, language and social skills. Even more, for the next four years, Desert Voices became our family away from home which made traveling each week a little easier.

Madden's love for soccer has allowed for many new friendships. Madden's voice has given him confidence in everything he does and has strengthened his personality. He is an honor student in school and will be using his beautiful voice in his first school play this year. All of this is because of Desert Voices. They provided Madden a foundation for him to be successful in every way possible. Our family will be forever grateful for their sincere compassion and drive to give Madden his voice!.....No matter what he says :)

-Naomi and Kevin

WHERE DEAF CHILDREN LEARN TO SPEAK

ABOUT THE

Schuff Steel Charity Golf Classic

For the past 15 years, Schuff employees, customers and vendors gather together for a day filled with eagles, birdies, and—let’s face it—more than a couple of bogeys. Most importantly, together we raise funds essential to the efforts of Desert Voices, the beneficiary of the Schuff Steel Charity Golf Classic.

Desert Voices is Arizona’s only non-profit organization dedicated to teaching children who are deaf the listening and spoken language skills needed to speak and to understand when others speak to them.

Schuff Steel began supporting Desert Voices to support one of our own, Ashley Kempton, who enrolled in 2002. When we saw the profound impact they made on Ashley and her classmates, we knew we had to continue supporting Desert Voices and its essential oral language educational efforts.

Desert Voices provides life changing services to children who are deaf, firmly believing that when you give a child a voice, you give them the world.

Over the years your support has impacted the lives of so many children, ensuring they won’t have any limitations because of their hearing loss.

THANK YOU FOR HELPING US GIVE DEAF CHILDREN A VOICE!
