

## MEET AUBREY...again

You may have read Aubrey's story in our 2020 brochure or seen her in this year's video but mom and dad said it best, "she is the life of the party" and she will steal your heart the minute she greets you. So Aubrey and her family will be joining us again this year (in person) so you can hear first hand the impact Desert Voices has made on their family.

### Here is her story...

Aubrey is an outgoing child who loves singing, dancing, and playing with her older sister. She is the life of the party and loves adventures with whomever she can convince to come along.

During pregnancy we found out Aubrey had congenital CMV (Cytomegalovirus) and knew there would be complications after her birth including but not limited to hearing loss since CMV is the leading non genetic cause of hearing loss. Although she passed her newborn hearing screen, 1 month later they started to see some hearing loss in her right ear. After focusing our energy on physical therapy to help her overcome a large delay in gross motor skills, at 16 months we discovered she had a unilateral severe/profound sensorineural hearing loss in her right ear. Two days after she got her Ponto hearing device she stood for the first time and two months later, at 19 months, she walked!

We found Desert Voices through a friend right before Aubrey turned two and it has been the biggest blessing for our entire family. Her vocabulary and speech have flourished in the Parent Coaching classes where she worked with a speech therapist and we learned strategies to support her speech at home. She started in the Jump Start class in the fall and quickly advanced to the toddler class where she is not only continuing her work with speech but also working on her auditory and listening goals. Her developmental delays in her first 19 months have left her inexperienced with self regulation of her emotions, behavior, and feelings. Desert Voices has presented her with many opportunities to improve her social emotional skills as she participates in various learning activities with her classmates.

Everyone at Desert Voices is absolutely wonderful and have provided such a loving and supportive learning environment for not just Aubrey, but our whole family. We cannot say enough great things about the teachers, the families and the amazing service they provide for our little girl! From the bottom of our hearts, thank you!

WHERE DEAF CHILDREN LEARN TO SPEAK

# ABOUT THE Schuff Steel Charity Golf Classic

For the past 17 years, Schuff employees, customers and vendors gather together for a day filled with eagles, birdies, and - let's face it - more than a couple of bogeys. Most importantly, together we raise essential funds for Desert Voices, the beneficiary of the Schuff Steel Tournament. While we did not get to have this same experience in 2020, the Schuff Steel community still showed their unwavering support for this little school making a big impact on children with a hearing loss.

When this tournament started to help one of its own in 2005, we had the hope and intention of making a big impact. What we did not expect was to continue this impact for years to come. To date we have raised over 1 million dollars for Desert Voices and we don't plan on stopping. Now more than ever, the families at Desert Voices need our support.

We hope you can join us for the 2021 tournament. While it may be a new time of year for us to come together, that is the only change you will experience, well maybe a little more distance from one another, but our mission remains the same, to raise funds to support the families at Desert Voices.

Desert Voices provides life changing services to children who are deaf or hard of hearing, firmly believing that when you give a child a VOICE, you give them the world.
